## IMMEDIATE OPENING FIELD BIOLOGIST/TECHNICIAN

---

**Closing Date: Open Until Filled**

Ecoscope Environmental Consultants Ltd. is an environmental consulting company located in Kelowna, BC. We provide a broad range of environmental services for our clients, focusing primarily on biophysical inventory and mapping, ecological landuse planning, groundwater/contaminated sites, fish and wildlife studies, topographic/bathymetric surveying and sophisticated geomatics, and environmental monitoring for construction. Ecoscope offers exciting opportunities for individuals to work on a wide variety of projects throughout BC. We are currently seeking applications for the following opportunity:

### **Field Biologist/Technician**

The ideal candidate will have the following skills and credentials:

- Diploma or degree in Fish and Wildlife, Environmental Sciences or similar
- Experience with environmental monitoring for large infrastructure projects
- Knowledge and implementation of Best Management Practices such as but not limited to:
  - *BC Standards and Best Practices for Instream Works*
  - *DFO Standards and Codes of Practice*
- Knowledge and implementation of the *MOTI Standards and Specifications for Highway Construction (2020) – Section 165 Protection of the Environment*
- Strong problem solving, organization and communication skills
- Experience writing detailed environmental monitoring reports, tracking environmental concerns, issues and resolutions
- General knowledge and interpretation of engineer drawings and construction implementation
- Experience with breeding bird nest survey protocols, and fish/amphibian salvages for construction
- Willingness to travel and work for extended periods away from home, throughout BC as needed
- Backpack electrofishing certification

Additional skills/experience that are preferred, but not necessary to apply:

- Professional designation (e.g., R.P.Bio., R.B.Tech., P.Ag.,) or in the process of acquiring such designation (e.g., B.I.T. or A.I.T.)
- Erosion and Sediment Control inspector designation (i.e., CPESC, CISEC, or CESCL)
- Experience with Environmental Assessments, RAPR Assessments and permitting under the Water Sustainability Act
- Certified Swiftwater Rescue Technician

Interested persons are encouraged to submit resumes electronically or in person with a cover letter detailing your experience to: [ecoscape@ecoscapeltd.com](mailto:ecoscape@ecoscapeltd.com). We thank all those interested in this opportunity; however, only those short listed will be contacted.
