

IMMEDIATE OPENING

ENVIRONMENTAL FIELD TECHNICIAN

Posted: July 21, 2023 – Closing Date: Until Position Filled

Ecoscope Environmental Consultants Ltd. is a mid-sized environmental consulting company located in Kelowna, BC. We provide a broad range of environmental services for our clients, focusing primarily on biophysical inventory and mapping, ecological land use planning, fish and wildlife studies, groundwater assessments, and contaminated sites investigations. Ecoscope offers exciting opportunities for individuals to work on a wide variety of projects throughout BC. We are currently seeking applications for an **Environmental Field Technician**.

The ideal candidate will have the following skills and credentials:

- Diploma or Degree in Fish, Wildlife, Environmental Science, or equivalent.
- Aptitude and experience with field data collection, which may include sediment, benthic invertebrates, groundwater and surface water quality, and biological inventory.
- Strong problem solving skills and ability to multitask and work well with a multidisciplinary team.
- Must be physically fit and capable of safely negotiating challenging terrain.
- Knowledge and experience with stream channel assessments.
- Understanding of river morphology and topographic features.
- Understanding of construction environmental monitoring.
- Strong written and verbal communication skills and excellent time management (examples may be requested).
- Working knowledge of Microsoft Office (Word, Excel, Outlook).

Additional skills/experience that are preferred, but not necessary to apply:

- Working knowledge of survey equipment including RTK GPS/GNSS survey gear and/or Arc GIS Pro.
- Experience with boating (river and flatwater) and certified in SVOP or MEDA3, and Swiftwater.
- 1-3 years' experience in the consulting industry or other relevant industry.
- Experience with contaminated sites investigations.
- Experience with environmental permitting and environmental construction monitoring.
- Preference for candidates that can conduct and oversee field investigations, including drilling, test pitting, excavations, groundwater monitoring/sampling, soil vapour sampling, inventories for fish or wildlife, and assist with other field duties as needed.
- Preference for candidates that can assist with Environmental Impact Assessments, Environmental Management Plans and Riparian Areas Protection Regulation Assessments under the guidance of a Project Manager.

Interested persons are encouraged to submit resumes electronically or in person with a cover letter detailing your experience to: ecoscape@ecoscapeltd.com. We thank all those interested in this opportunity; however, only those short-listed will be contacted. Short-listed candidates can expect a virtual or in-person interview at our Kelowna office. We will consider reasonable travel expenses following a pre-screening phone interview.
